Yogyakarta, Indonesia

I'm a fresh graduate in Information Technology with hands-on experience in website testing, bug reporting, and collaboration with developers. Skilled in system analysis, UI/UX design, and manual testing, with a strong interest in Quality Assurance and Software Testing.

Work Experiences

Career Development Center Universitas Muhammadiyah Yogyakarta

Jan 2025 - Present

- Designed and documented test scenarios and test cases for the SIM Tracer website to ensure coverage of functional requirements
- Executed manual test scripts to verify system functionality, usability, and reliability
- Ensured SIM Tracer system quality by identifying defects/bugs/errors before the system was deployed for institutional use
- Coordinate with the developer team to discuss defects/bugs/errors to improve the overall quality of the system

Universitas Muhammadiyah Yogyakarta

Feb 2024 - Jul 2024

Assistant Lecturer – Game Design Course

- Supported >40 students in applying theory through practical design projects, prototyping, and concept development for final assignments
- Guided students in conducting usability testing to evaluate the effectiveness and user experience of their game prototypes
- Assisted students in identifying design flaws and documenting issues, reinforcing the importance of testing and iteration in the design process

Creative Gama Studio. CV - Yogyakarta, Indonesia

May 2023 - Jun 2023

UI/UX Designer Internship

- Created wireframes and interactive prototypes to illustrate design concepts and validate usability improvements
- Redesigned the SI Bengkel internal website using Figma, focusing on usability and modern UI principles
- Developed and customized a responsive WordPress website to strengthen the company's marketing reach
- Configured themes and plugins to meet specific marketing and business requirements

Education Level
